This week in 2's....

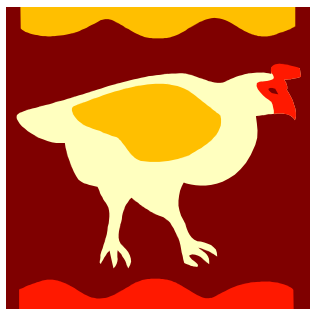

Theme: On the Farm

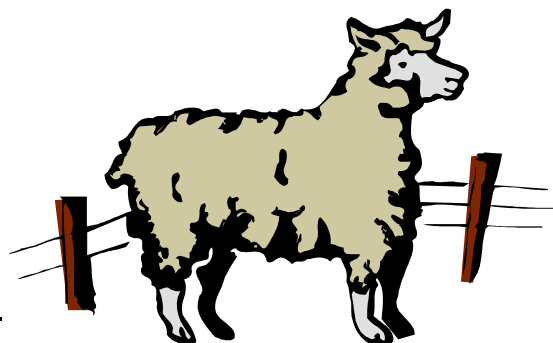

Bible Story: God Made Water

*We look forward to some wonderful activities this week involving water! We will paint with watercolors, "paint" a cardboard box with water, and much, much more!

We will also pretend to be a farmer and make grits and lemonade with water in the Homeliving Center. In Nature, we will experience water in our sensory table and continue to observe our grass and sweet potatoes with our magnifying glasses.*

This week in 3's....

Theme: On the Farm

Bible Story: Food for Ruth's Family

We can't wait to make mosaics, coffee filter butterflies, and other fun art activities as we study more about life on the farm! In Homeliving, we will enjoy washing and pretending to cook with fruits and vegetables. We'll develop our fine motor skills while separating corn kernels with tweezers. We will continue to enjoy corn fee and oatmeal in our sensory tables. It's going to be a great week!

This week in Pre-Kindergarten....

Theme: Life on the Farm

Bible Story: Joseph Helped his Family

* We are continuing to have so much fun learning about things on the farm! We will also be focusing on the letter H this week and finding different things that make the H sound. In math we will be talking about the concepts of "More & Fewer" while exploring various objects around the room and making class pictographs together. In centers, we look forward to pretending to be a veterinarian for farm animals and also building farm buildings. We will also be learning more silly rhymes about a mischievous goat and a mother hen!*
